Introducing
web based software ICDAS 2.0
Remote Chambers Management
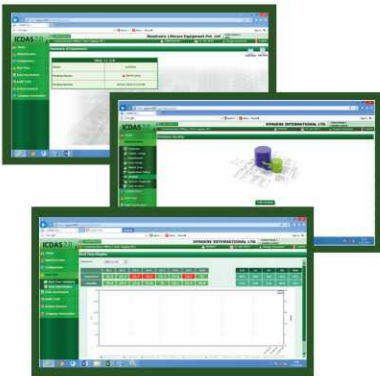

NE NEWTRONIC®

The name you can trust

Access
Anywhere
Anytime

Instantly connect and control your chambers from anywhere without installing software.

For over years, NEWTRONIC ICDAS software has been favored by test chamber operators for its reliability and ease. Now the same ease of operation is available remotely via a web browser. We have developed the ICDAS 2.0 Web based software to meet the increasing demands for improved operational efficiencies. The Web base software adds additional capabilities for datalogging, programming, and new features such as alarm notification via SMS and email.

Features

· Comply 21 CFR PART 11
· Browser Based Application
· Remote Data Acquisition
· Report generation
· Audit-Trail
· Email Alerts
· SMS Alerts
· System Diagnosis
· Chamber Access via Ethernet

Accessible via web browser
on Smart phone, Ipad
